HERB/SPICE

Cayenne

Cayenne peppers are the source of the familiar red pepper spice used around the world to flavor dishes. One ingredient in cayenne peppers (capsaicin) is a natural pain reliever, and the peppers also help prevent stomach ulcers, clear congestion, and boost immunity.

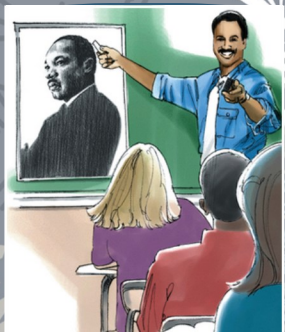

GREAT STARTS.

A fast start is so important. And what better way to start the New Year than by starting each NEW DAY with a healthy, complete breakfast? You'll have more energy, be more alert, and feel full through the morning!

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.
WELLNESS IS A WAY OF LIFE!

*School will be closed
Monday, January 15
in recognition of
Martin Luther King, Jr.'s
birthday.*

Tuesday, January 16

Mandarin Oranges
Milk

Friday, January 19

Breakfast

Maple Waffle
Chicken Sandwich
Pineapple Tidbits
Juice
Milk

Lunch

Hamburger
Fries
Lettuce/Pickle Cup
Orange
Milk

**Which of these prehistoric
life forms is NOT extinct?**

STEGOMASTODON -- a six-ton elephant-like behemoth.
MEGATHERIUM -- a four-ton giant ground sloth. And the
AVOCADO?! The first two are extinct -- and the third probably
should be. The avocado plant developed its large seed (it was
even larger back then) because very big animals would eat the
fruit whole in one gulp, seed and all, and help the plant spread
to new areas. When most of the big mammals died off 10,000
or more years ago, the avocado should have disappeared with
them -- birds and tiny mammals can't begin to swallow and
disperse a seed that big! But somehow the wild avocado
survived thousands of years until humans learned to cultivate
the delicious fruit. And the avocado's future survival was
guaranteed when man discovered the Super Bowl and started
cranking out lots of guacamole every winter!!
